Smart and Secure Solutions
through Virtualization and
Mobility

DIGITAL CREDENTIALS

Switch to digital credentials for a cost-effective, secure solution. Improve security, boost efficiency, and support sustainability by eliminating physical cards and streamlining access management.

HID | Origo

Wallet Credential  

Apple/ Google Wallet

NFC mobile credentials in your Apple and Google wallets grant secure, keyless access to your facility.

BLE/NFC Credentials

BLE/NFC type credentials with twist and go option to gain entry and access secure areas without needing a physical access card.

QRify: Dynamic QR code

Dynamic QR offers secure access with universal compatibility across Android and iOS devices. Transforms user onboarding from weeks to minutes.

Remote Door Unlock

Use the GreenID App to remotely open doors when someone's waiting at your doorstep, ensuring access control at your fingertips.

e-BADGE

Employee ID

Throw away your plastic ID cards for dynamic virtual credentials. Enhanced security with live animations, efficient issuance, revocation, and significant cost savings.

e-Business Card

Swap traditional business cards for virtual ones and easily share contact information directly to mobile devices or connect on professional networks facilitating instant collaboration and promoting ecofriendly practices.

VISITOR MANAGEMENT

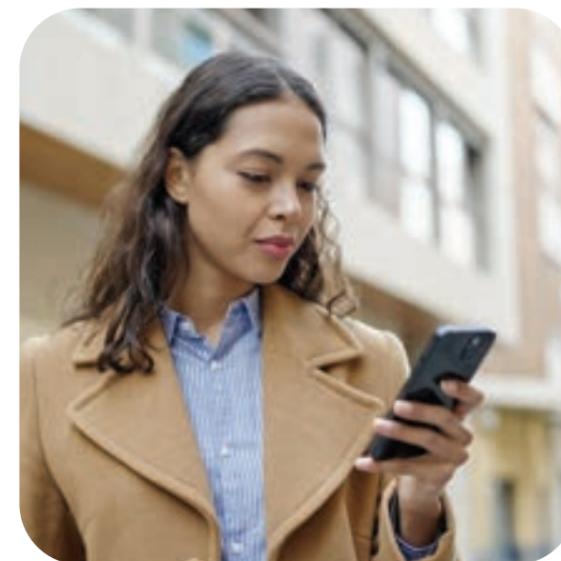

Effortless Visits

Easily invite visitors, issue e-passes with a click, and get arrival alerts, streamlining visitor management for a hassle-free experience.

Streamlined Operation

Manage meetings, book rooms, and approve web and walk-in visitor requests seamlessly, enhancing office efficiency and visitor experience.

ATTENDANCE & LEAVE MANAGEMENT

On the Go Attendance

Accurate time-tracking for modern workspaces with geo-fencing and tagging feature helping in streamlining the attendance process.

Unlock Productivity

Efficient management of leave requests missed check ins, regularization and compensatory offs with simplified approval workflows.

Smart Business Card

Attendance Management

Our cloud-based GreenID mobile app seamlessly adapts to the unique requirements of any organization or industries, providing flawless access control management. Experience our innovative GreenID access control solution today.

BENEFITS

On the Move

GreenID's mobile app empowers users with on-the-go access to critical tasks, boosting engagement, productivity, and efficiency. Streamline operations and save time with GreenID's mobile solution.

Revolutionize Onboarding

Cut time from weeks to minutes with swift on-boarding. Digitize the process, eliminate physical touchpoints, and seamlessly integrate credentials into your IT backbone.

Green Impact

Join the green movement! By swapping 100 plastic ID cards and 10K business cards, you save 100 Kg of carbon emissions and protect trees for a sustainable future.

Cost Efficiency

GreenID slashes expenses, achieving a 10x cost reduction by eliminating physical ID card printing, distribution, and manual processes. Embrace it for a smarter, leaner future.

Elevate Security

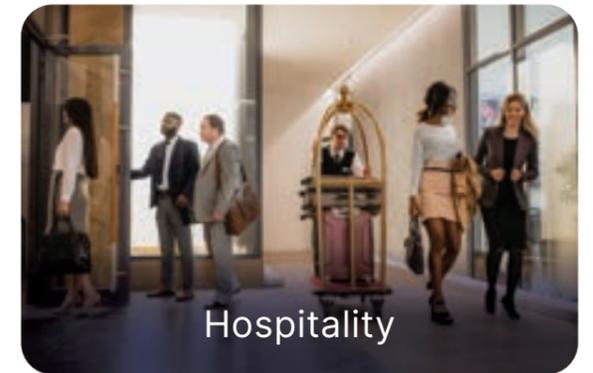

Alnsights aids in meeting regulatory requirements by providing accurate incident reporting and documentation, ensuring the organization stays compliant with industry standards

Enhanced Safety

Get real-time vital security alerts and timely notifications for swift, effective responses allowing proactive actions to mitigate risks and maintain safety.

OUR EXPERTISE

We built the World's first AI-powered operating system for physical Access Control - Access360.

The OS provides comprehensive support for a wide range of physical identities, encompassing legacy credentials like smartcards and biometrics, as well as virtual ones such as mobile credentials and dynamic QR codes. This enables secure and agile authentication of diverse entities across various facilities.
