

Business Park 

Empowering business
park efficiency

USA

Navigate the complexities of managing multiple tenants with vast workforces, securing shared and private spaces, and meeting diverse compliance needs.

Access360 streamlines operations, ensuring secure, seamless, and sustainable access control. Elevate tenant experiences through our innovative features, from exclusive portals to eco-friendly virtual credentials. Experience the future of Business Park management with Access360.

BENEFITS

Enhance Tenant Experience

Empower tenants with custom portals for convenience, security, and direct access to vital data

Elevate Security

Shift from reactive to proactive and preventive with advanced AI analytics and comprehensive end-to-end encryption measures

Brand Enhancement

Enhance your business park's brand perception with a secure, welcoming environment, automated processes, and eco-conscious initiatives

Boost Productivity

With automation and integration, reduce your tenant's onboarding time from 2 weeks to 2 minutes

Green Initiative

Promote sustainability, reduce energy consumption, and meet environmental standards for a future-forward Business Park

Cost Savings

Reduce your access control operations cost by 80% with mobile credentials and the cloud platform

FEATURES

Facility Management Portal

Efficiently manage tenants, staff, visitors, and contractors via the web portal. Configure access hardware for private and public areas and onboard tenants by creating organizational profiles.

Exclusive Tenant Portals

Allow tenants to independently onboard their workforce, assign credentials, manage access rights, invite visitors, and access custom reports and dashboards.

Manage Evolving Identities

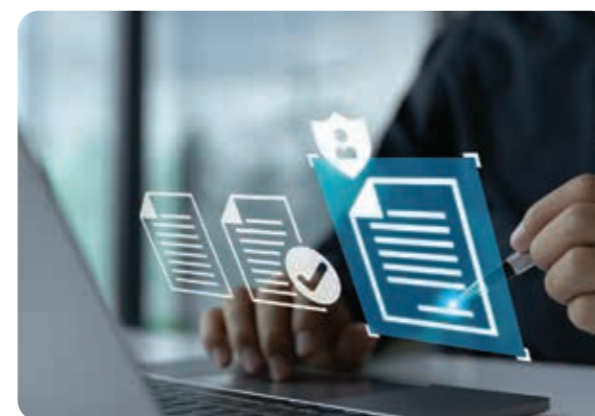

Seamlessly manage all forms of physical, biological, and virtual identities.

GreenID Mobile App

Elevate tenant experience with the GreenID mobile app, offering mobile credentials, visitor workflows, tenant-specific business cards, and virtual ID cards for business parks.

Sustainable Practices

Transform your business park into an eco-friendly space with Access360. Virtual credentials, paperless visitor flows, cloud hosting, and AI analytics reduce carbon footprints and enhance sustainability.

Fort Knox Security

Ensure data security compliance with ISO 27001 & 27018, SOC2, GDPR, PCI-DSS, HIPAA, and NIST-SP 800-53.

Multi-Tenant Visitor Management

Effortlessly manage visitors in a multi-tenant setting. Pre-register, issue QR e-passes, and facilitate secure access with personalized tenant details, enhancing overall visitor experience and security.

Elevator Access Control

Secure elevators with tenant-specific access to floors, including tenants' visitors for classical elevators and destination dispatch/ destination control elevators.

Accurate Time Tracking

Minimize billing discrepancies and person-hour leakages by ensuring precise attendance and time tracking for contractors and workers.

Smooth and Secure Vehicle Access

Simplify vehicle access management with UHF, active RFID key fobs, mobile credentials, and ANPR for authorized entry and exit.

AI Sentinel

Optimize resources using footfall heat maps, behavioral analysis, and anomaly detection for security and maintenance. Contribute to energy savings and enable proactive measures.

We built the World's first AI-powered operating system for physical Access Control — Access360.

The OS provides comprehensive support for a wide range of physical identities, encompassing legacy credentials like smartcards and biometrics, as well as virtual ones such as mobile credentials and QR codes. This enables secure and agile authentication of diverse entities across various facilities.
